

# YouLoad

## Easy and Reliable.

Exchanging files over the Web is now as easy and familiar as attaching a file to your e-mail. YouLoad's large file delivery system delivers the ease, flexibility, and reliability you need on a daily basis.

Avoid confusing FTP settings for your customers. Avoid failed e-mail delivery when files are too large. And avoid the project bottleneck when waiting for a CD/DVD to arrive in the mail.

YouLoad makes it easy to get the files you need when you need them.

### Ready For The Digital World

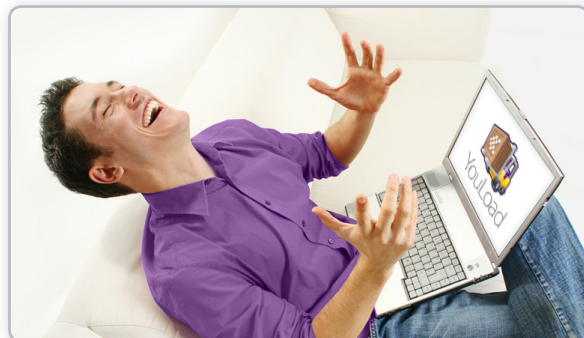

Until today, the market has lacked a large file delivery solution that enables the kind of instantaneous, simplistic exchange of oversized files that positively impacts business performance. YouLoad liberates businesses and entrepreneurs from the limitations of previous file delivery solutions. By delivering a solution accessible to anyone with an Internet connection, YouLoad bridges the gap between huge file delivery and success!

Access to YouLoad is easy. Anyone equipped with a login and password can **send and receive files as large as 2GB**. With a file delivery system as easy as receiving an e-mail, YouLoad takes the guesswork out of accessing your files online. Manage file downloads, track sent files, authorize multiple sender addresses, customize your e-mail notifications, create a customized upload drop-box, and so much more. Quick, intuitive, and cost-effective, YouLoad is equipped

with the tools and full-featured functionality you expect from a premier online file delivery system.

YouLoad is a remotely-hosted file delivery service that requires no technical training, no special hardware, and no software installation. Available in multiple packages, YouLoad is priced to meet the needs of both small and large businesses.

Whether you are a graphic designer, digital photographer, web developer, or a business with the need to exchange huge files, YouLoad is designed to accelerate your business work-flow and streamline file delivery.

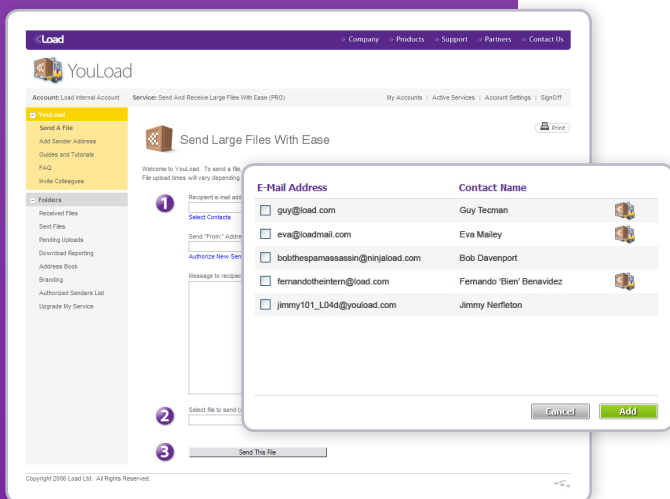

"YouLoad gives us great flexibility with our clients."

D.J. Allen, President  
Imagine Marketing of Nevada

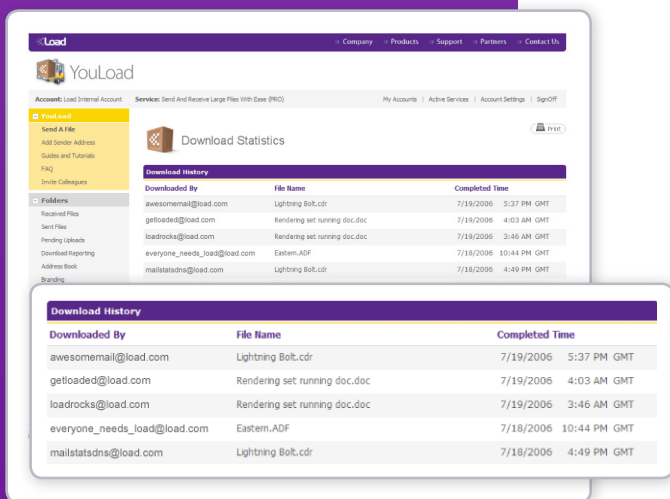

# YouLoad

## Send-A-File

Sending large files is easy with YouLoad. Simply enter the recipient's e-mail address, choose the send-from address, upload your file, and define your advanced settings for download access. It's that easy.

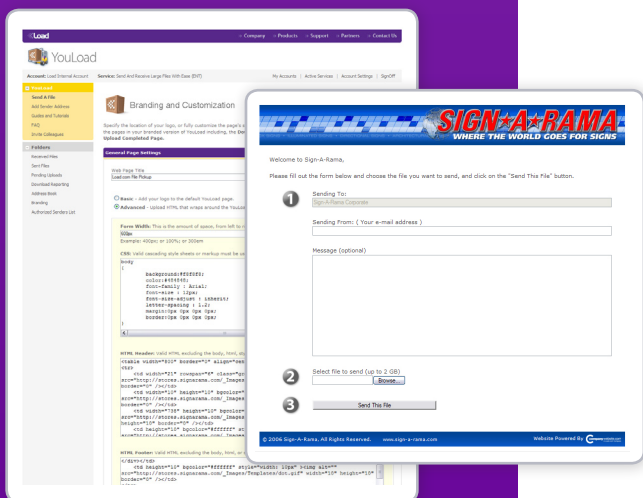

- ▶ Simple 1-2-3 process makes sending files easy
- ▶ YouLoad Address Book enables quick sending
- ▶ Upload files up to 2GB
- ▶ Password protect files and restrict download counts

## Download Reporting

Identifying the download details of your sent files gives you the ability to track who accessed your file, when it was downloaded, where it was accessed geographically, and more.

- ▶ Track total number of downloads per file
- ▶ Identify downloads by recipient and date
- ▶ View geo-targetting data for downloaded files
- ▶ Easily access download details for sent files

## Customize YouLoad

Extend your brand by customizing the YouLoad service. With two levels of branding, YouLoad is easy for beginners and powerful enough for Web designers seeking to create a seamless online presence.

- ▶ Create a fully branded Upload Dropbox Page
- ▶ Customize and brand your Download Page
- ▶ Brand e-mail notifications delivered to user's inbox
- ▶ Deliver a unique message to your recipients
